

PUBLIC LEDGER

FOURTH YEAR.

MAYSVILLE, KY., FRIDAY, MARCH 1, 1895.

LARGEST IN THE CITY.

Purely Business!

The volume of a newspaper represents a cash value. No publisher can afford to pay more than \$1000 per year for any more than a merchant can afford to give for shoes. A newspaper is a legitimate business concern. Its cost must be paid. The expenses of its advertisement should be paid for, no matter what in part the paper may appear.

The Continued Calls

upon THE LEDGER for free notices have become so burdensome, on being asked to publish the following terms:

Notes of Suspense

remuneration, rates, or other particular charges for insertion, no fee is charged, and for obituary notices, resolutions of respect, &c., \$5.00 per line, and thereafter five cents a line, and hereafter this will be the inevitable rule. This, however,

Does Not Include

notices of Lodge meetings or Church services, which must exceed ten lines.

Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for *Business Leads* in the *Public Ledger* is 25 cents for insertion and 5 cents a line for subsequent insertion.

A very local insertion in the paper, "Tell it when you take it off," he says, "and when you get it off, tell me all about it." The notice runs in the paper for three days at \$10. When he finds it out there is a "kick" and a controversy, followed by a long drawn-out fight. Now, to obviate this trouble, no "Tell for Tell" notice will be taken unless there is a definite agreement at the outset and the termination will be pleasant.

It is the desire of publication must be handed in before 8 o'clock in the morning of each day.

If you have friends visiting you, or if you are going away on a visit, please drop us a note to that effect.

NOTICE.

Only \$5 Involved, But the Costs Have Already Been \$200.

A trial that is exciting more than local interest, and which forcibly illustrates the Kentucky's weakness for going to law, has been occupying the attention of Judge Burnam's Court at Richmond for the past two days.

The bone of contention is a poor, little red heifer, which on court day would not bring \$5 at an auction sale.

The plaintiff, one Flannery, claims that he bought the heifer from a neighbor named Fish, while the defendant, one Hays, insists that he raised it. This is the fourth trial of the case. The costs have already been \$200.

The Editor of *The Bulletin*, in trying to "root" THE LEDGER, is yeoman work. He said this paper should be blamed for publishing the fake story and not the preachers. Why did he send it to The Enquirer, saying that it had been the means of getting a large number of people to go to church who were not accustomed to go, if it was a fake? We know that the story was not the means of securing a larger attendance at the churches on the part, and we remember of hearing one of the members of his own church tell him such much. Come off, *Quire*.

BASEBALL PROSPECTS.

Ashtown News. Frank Mercer, the baseballist who made such a game effort last season to produce a tri-state league, will again make an effort in this line just as soon as he returns from a visit in Central Ohio, very likely early in March. Mercer has earned quite a reputation as a pitcher, and last season played with the Southern League. He hopes to interest Ironton, Ashland, Huntington, Charleston, Portsmouth and Mayville, and thinks, like many others, that a league comprising those cities could be a financial success.

JUDGE O. S. DEMING.

THE ROBERTSON COUNTY STATESMAN TALKS TO A CINCINNATI REPORTER.

Yesterday's Cincinnati Commercial Gazette contained the following:

"Judge O. S. Deming of Mt. Olivet, Ky., is registered at the Bristol Hotel. Judge Deming is a well known and prominent Republican, and will, in all probability, secure the Republican nomination for Lieutenant Governor.

"In an interview as to the political situation in Kentucky, the gentleman said that while he believed that his party had a hard fight before them in the coming election, he felt confident that they would win the day. 'It will not be however,' said the Judge, 'without a hard tussle.' The most prominent men spoken of in a gubernatorial capacity, he continued, are Bradley, Wilson, W. H. Cox of Maysville and Colonel Oneal of Covington. These are all good men, and will make a strong race against either Hardin or Clay, one of whom will be selected by the Democratic party as their standard-bearer."

"I will not say that I am or am not a candidate for nomination as Lieutenant Governor, but should my friends see fit to place me on the ticket, I can assure them that I will make a most vigorous canvass."

"Judge Deming was first a Republican Elector for the Ninth Congressional District in 1876, the time of Hayes's candidacy, and has since then constantly worked for and had the interests of his party at heart.

"He has never asked anything in return, and it is considered just should they in this instance honor him with the nomination."

"In 1879, during the campaign made by Walter Evans for Governor, Judge Deming canvassed the state most thoroughly, and thus remembered of hearing one of the members of his own church tell him such much. Come off, *Quire*.

REV. E. B. CAKE'S

HALF-HOUR TALK ON THE BIBLE

SEE MONDAY'S LEDGER!

The Frankfort Capital is very sarcastic on the postage stamps issued by its Administration at Washington. "Uncle Sam had better stop the talk about a new design for letter stamps until they get some new paper and some new workers. The two-cent stamps now on sale are the worst lot since stamps were invented. A dollar's worth will curl up into a candle lighter that a derick won't unroll before the postages has had them an hour."

The editor of an exchange draws a solution from the remarkably severe winter by the following remarks:

"Yes, the winter has been hard, very hard since the latter part of December; but much snow means a big grain crop to follow, hard freezes mean much fruit and plenty of ice for mint juleps in summer and a very hard winter always precedes a healthy spring and summer. Don't complain of old winter, but look forward to the blessings it is working out for us."

The Southern Central Fair Circuit, which includes Northern Tennessee and Southern Kentucky towns, has been arranged for the coming season. The meetings occur as follows: Nashville, August 7th to 10th; Columbia, August 13th to 16th; Murfreesboro, August 19th to 22d; Franklin, Ky., August 26th to 29th; Bardstown, Ky., September 2d to 7th; Elizabethtown, Ky., September 9th to 14th; Evansville, Ind., September 16th to 21st; Paducah, Ky., September 23d to 28th; Owensboro, Ky., October 1st to 5th; Jackson, Tenn., October 7th to 12th.

HE ACCEPTS.

Wm. L. Wilson Refused the Mexican Mission,

And Accepts the Nomination of Postmaster General.

The former position pays \$117,500 a year, but the latter only \$48,000.

Besides the climate of Mexico is just what Mr. Wilson needs.

WASHINGTON, March 1.—Wm. L. Wilson's appointment to be postmaster general seems to be satisfactory to everybody in Washington and there is no doubt that his nomination will be promptly confirmed at the next executive session.

To a reporter Mr. Wilson stated Thursday that a tender of the post office position had been made him by President Cleveland on Monday. On the following day he formally notified the president of his acceptance and was told that his nomination would be made Friday. He does not expect to receive it until Saturday.

When he was first reported that Mr. Wilson would be the successor of Mr. Bissell in the cabinet it was said that the senate might not be disposed to confirm him. But the reports claim that the senators have been fully informed and the struggle over the tariff bill is over.

There is no member of the senate, however, who resents Mr. Wilson's attack earnestly enough to cause him to oppose the confirmation, and the republicans are as willing as the democrats to pay him the compliment of the real cause of the president's removal.

Those who know Mr. Wilson best are surprised that he is willing to accept an office the duties of which are largely those of a postmaster.

HUNTINGTON, Ky., March 1.—Crazed with liquor, John M. Herres, a shoemaker, fatally stabbed his wife, killed his 4-year-old daughter, Fannie, and injured himself.

Herres had a bad temper but Wednesday he was more than ordinarily vicious, and shortly before 5 o'clock started an unprovoked attack upon his wife. With a small knife used in his trade, he gashed her gash in her throat and stabbed her repeatedly in the breast.

Believing her dead, he next attacked Fannie, almost severing her head from the body and then with the same instrument sliced his own head from ear to ear, dying almost instantly.

The Harvard Trial.

MINNEAPOLIS, March 1.—The end of the long drawn out Harvard trial is in sight. The defense Thursday concluded that the state will give up two days for retrial and the defense half a day for re-submission. FEARLESS: Lawyer U. C. Thoroughman began to private school at this place last Monday.

The warm sun of Sunday and Monday melted the snow and broke up the ice in the creeks.

There is now an interesting and we hope profitable, religious meeting being held at the M. E. Church.

Died, Monday morning, the 20th, after a lingering illness, Mrs. Thomas W. Fry. The cause of death was supposed to be a tumor near the stomach. Deceased was a member of the Methodist Church on Pleasant Ridge. The funeral took place Tuesday at Bethany Church in Pleasant Ridge.

Do you know that when you read in the daily papers about ex soldier Bill Dick and Tom getting a reissue of pension that it's a reissue of certificate to allow a less and a return of the old or original certificate? Don't you think if you voted for it, and now you have got it?

Isaac Cobb and wife of Kenneth Creek, George N. Harding and John Walsh of Mayville are assisting the Pastor, Rev. S. M. Grimes, in his work at the M. E. Church. The former returned home Monday, after a pleasant visit and enjoying a good meal. Let us wish it out on this fine occasion.

It bears looking as if Professor and Colgate Judge, Deputy Clerk, Justice of the Peace and all the rest of the legal authority will have to take a back seat and make room for the Pastor. Pastors are not to be consulted by the Governor of Kentucky. It shows education is on the increase, whether some of them can tell a good deal about it from a dead treatise from Utah.

D. L. Dunbar of this place received a registered letter from the Payson Department to the effect that he would work some, and that thirty days before he could return to the country he could show by medical evidence otherwise. So you see if medical evidence is not sufficient he will get a release from the law, but it will probably result in a less rating. This is the red tape ruling by the present firm to save some of the surplus in Treasury to the great Government the soldier had to serve.

The M. E. Church at this place was built in 1850 under the management of Rev. E. C. Pollard at a cost of about \$1,100.00 and the society has a balance of \$100.00 which they have died, removed and transferred until only about twenty very cold "don't know where I am at members" remain. The church in the past five or six years tried to get the different Pastors to take the necessary steps and put the roof on and paint the house, but as far as we know, the matter never was attended to until the present Pastor came, and he took our advice and brought the matter before the last Quarterly Confer-

ence. A committee was appointed to attend to the roof and the present minister has money set aside to roof and paint the church. There are some people who would rather see a sheep made of churches than repaired.

C. W. HOWARD, Superintendent, St. Paul, Minn., Sept. 15, 1841.

Eureka Chemical and Mfg Co., La Crosse, Wis.—Dear Sirs:—I have been a friend for many years, and am a subscriber to your paper. My whole nervous system became affected—until my physician told me I must give up the use of tobacco for the time being at least, without any success, until I accidentally came across your "Baco-Curo." Three weeks ago today I commenced using your preparation, and am now considerably better. I am not saying for tobacco which every invertebrate smokes, but completely left off smoking for tobacco which every invertebrate smokes, and can assure you, I consider your "Baco-Curo" most wonderful, and can easily recommend it.

C. W. HOWARD.

The advertising columns of THE LEDGER speak for themselves. They show that people who know how to advertise know also WHERE to advertise.

Some excellent pictures in the life of crayon portraits may be seen in the windows of M-a-s-s, Pecon, Nelson and Power, the work of the Watters Party at the St. Charles Hotel.

Buyers are similar to other people—they like to be asked, and when they see an advertisement in THE LEDGER they naturally regard it as an invitation to call. No one likes to go where he is invited or wanted.
